

*Dear California Legislative Staff Member:*

*Sierra Club California cordially invites you to attend an environmental briefing and lunch.*

**“Renewable Distributed Generation: Bringing Local Clean Energy to California”**

Governor Jerry Brown has called for at least 12 gigawatts of electricity from local clean power sources, such as rooftop solar panels, small wind turbines and fuel cells, by 2020. Twelve gigawatts is enough to power roughly 3 million homes. How will California meet this goal? Our panelists will discuss the enormous untapped potential of local clean energy generation in California.

*Presented by:*

***Danny Kennedy,***  
*President,*  
*Sungevity Solar Home Specialists*

***Strela Cervas,***  
*Co-Coordinator,*  
*California Environmental*  
*Justice Alliance*

***Bill Powers, P.E.,***  
*Author of “Bay Area Smart En-*  
*ergy 2020” (2012) and “San Diego*  
*Smart Energy 2020” (2007)*

***Date: May 3, 2012***

***Briefing time: 12-1 p.m.***

***Where: Capitol Building, Room 447***

***\* Lunch will be provided after the briefing. Please Contact our Legislative Intern, Callisyn Zielenski, at [callisyn.zielenski@sierraclubcalifornia.org](mailto:callisyn.zielenski@sierraclubcalifornia.org) to RSVP and confirm lunch selection.***

This briefing is sponsored by Sierra Club California and allied organizations as part of the Protect California Campaign, a no-regrets campaign designed to educate government officials and opinion leaders about the work left to be done to protect California’s environment. For more information about the campaign, visit [www.protectcalifornia.org](http://www.protectcalifornia.org) or visit us on Facebook at ProtectCA and Twitter @ProtectCA.
